## EDUCATION

---

**September 2012 - present | Bachelor of Engineering, Sun Yat-sen University**

School of Mobile Information Engineering

Major: Software Engineering

GPA: 3.6 / 4.0

## COURSE HIGHLIGHTS

---

**Mobile Application Interaction Design, Mobile Application Development, Design Implementation of Speech Recognition Systems**

## ACADEMIC EXPERIENCE

---

**September 2014 - July 2015**

**Undergraduate Research Program**

**School of Mobile Information Engineering, Sun Yat-sen University**

Performed research under Dr. Yanghui Rao on the sentiment classification of short text. Investigated maximum entropy model and constructed model for sentiment classification. The research work was supported by "the Fundamental Research Funds for the Central Universities"

**Paper:** "Intensive Maximum Entropy Model for Sentiment Classification of Short Text", Conference: DASFAA 2015 Workshops (SeCoP 2015), At Hanoi, Vietnam

## TEACHING EXPERIENCE

---

**March 2015 - July 2015 | Teaching Assistant, Sun Yat-sen University**

Course: Software Design

Course taught, Experiment Assistant

**September 2015 - January 2016 | Teaching Assistant, Sun Yat-sen University**

Course: Data Structures and Algorithms

Course taught, Experiment Assistant

## INTERNSHIP

---

**October 2015 - January 2016 | Python Develop Intern**

**Shenzhen Puzhi Technology and Media Co., Ltd**

- Developing crawler system
- Assisting front-end development

## ACTIVITIES

---

**March 2014- July 2014 | College Vice-Minister of Practice Department of Youth League organizations**

## AWARDS

---

**2013-2014 | Outstanding League Cadres, Sun Yat-sen University**

**2013-2014 | Excellent Student Scholarship, Sun Yat-sen University**

**2014-2015 | Academic Individual Scholarship, Sun Yat-sen University**

---
